

Meshnet / FabriMesh

Meshnet / Fabrimesh are a multi-purpose self-supporting shade net and welded mesh combination fabric.

UNIQUE FEATURES

- ⊙ Intersections are welded to form an integral non-collapsible barrier with shade net welded between the longitudinal and transverse wires.
- ⊙ Low maintenance costs
- ⊙ Reusable
- ⊙ All wires are lightly pre-galvanized
- ⊙ Branding options available

APPLICATION

- ⊙ Fences and site enclosures
- ⊙ Windbreaks
- ⊙ Carport security
- ⊙ Mini greenhouses/tunnels
- ⊙ Scaffolding debris-nets
- ⊙ Gabions
- ⊙ Manhole/Excavation enclosures
- ⊙ Store partitioning
- ⊙ Ground stabilization
- ⊙ Game/animal enclosures
- ⊙ Construction site enclosures
- ⊙ Coastal Fencing

Variations to the standard specifications are available upon request.

FabriMesh - 80% Green / Black shade net rolls 30M	
L/G 3.15mm wire x 100x100mm Aperture - 2.4m high	
STOCK CODE - LE100100-300002400-315315R-F	
L/G 3.15mm wire x 100x100mm Aperture - 1.8m high	
STOCK CODE - LE100100-300001800-315315R-F	
L/G 3.15mm wire x 100x100mm Aperture - 1.2m high	
STOCK CODE - LE100100-300001200-315315R-F	

Material Specifications for the netting:

Properties	Test Method	UOM Metric	Civil Net
Raw Material			HDPE
Mass	ASTM D377 6	G/M2	120
Stability against UVR		Years	8
CPI			10
Burst Test	ASTM 3786	KPA	120 Min
Stress			
Tear Test		N	550
Warp			
Elongation		%	45
Weft		N	1000
Elongation		%	23
Temp. Stab (Max)		Degree cc	80
Standard roll length	SABS 1703	M	25 50
Short lengths		When available	
Standard width		M	1.8m
Country of Manufacture			South Africa
